Focus

CORAZZIN

FOCUS è una sintesi pratica di decine di migliaia d'articoli che compongono i nostri programmi d'arredo, con combinazioni potenzialmente infinite per rispondere all'esigenza di rendere ogni progetto, un progetto unico e esclusivo.

Il fotografico presenta in modo dettagliato i tre programmi, il mod. LEONARDO caratterizzato da frontali in laminato senza bordi verticali, sostituiti dalla lavorazione postfoming con raggio 2 mm, il mod. ELEGANT con frontali bordati quattro lati in abs sp. 1 mm e il mod. FRAME con frontali impreziositi da una elegante cornice perimetrale. Per rendere più agevole la consultazione, la raccolta è stata suddivisa in cinque logiche categorie per facilitare l'individuazione dei vari modelli e gli argomenti di pertinenza.
Buona scelta, grazie.

FOCUS is a practical synthesis of tens of thousands of items that make up our furnishing programs, with potentially infinite combinations to meet the need to make each project a unique and exclusive project. The catalogue presents in detail the three programs, the mod. LEONARDO characterized by laminated fronts without vertical edges, replaced by postfoming processing with a 2 mm radius, the mod. ELEGANT with fronts edged on four sides in abs th. 1 mm and the mod. FRAME with fronts embellished with an elegant perimeter frame. To facilitate the consultation, the collection has been divided into five logical categories to facilitate the identification of the various models and pertinent topics.
Good choice, thanks.

ECO-LINE

Disponibile in 6 varianti. Una gamma di colori che vanno dai pastelli alle tinte accese. Viene prodotto attraverso l'utilizzo di vari cilindri, i primi creano il disegno del legno, i successivi lavorano con precisione le diverse sfumature del fondo e delle venature, creando la sensazione del legno decapato. Con un ulteriore passaggio, una piastra incide la superficie arricchendo il materiale di sensazioni tattili e materiche importanti.

Available in 6 variants. A range of colors ranging from pastels to bright hues. It is produced through the use of various cylinders, the former create the design of the wood, the later work with precision the different shades of the background and veins, creating the sensation of pickled wood. With a further passage, a plate engraves the surface enriching the material with important tactile and material sensations.

ECO-CALCE

Disponibile in due finiture: Perla e Cenere. Il materiale riproduce visivamente l'effetto della calce. L'utilizzo di più cilindri conferiscono al pannello la luminosità e il riflesso della calce appena stirata e delle diverse tonalità proprie dell'intonaco. Una piastra speciale imprime in superficie l'irregolarità materica. La finitura porosa dona morbide sensazioni tattili, rendendo il prodotto ideale per ambienti sofisticati, classici o contemporanei.

Available in two finishes: Perla and Cenere. The material visually reproduces the effect of lime. The use of multiple cylinders gives the panel the brightness and reflection of the freshly ironed lime and the different shades of the plaster. A special plate impresses the material irregularity on the surface. The porous finish gives soft tactile sensations, making the product ideal for sophisticated, classic or contemporary environments.

ECO-LAC

Disponibile in 12 varianti. Una gamma di colori che vanno dai pastelli alle tinte accese. Denominato "Laccato Ecologico" è un materiale estremamente innovativo. È ricavato dalla cellulosa in massa colorata e pressata nella finitura perla. Tutto questo per ottenere un prodotto naturale e nel contempo perfettamente omogeneo nel colore e morbido al tatto. Un prodotto strutturato, elegante, resistente e senza vernici.

Available in 12 variants. A range of colors ranging from pastels to bright hues. Called "Ecological Lacquer" it is an extremely innovative material. It is obtained from cellulose in colored mass and pressed in the pearl finish. All this to obtain a natural product and at the same time perfectly homogeneous in color and soft to the touch. A structured, elegant, resistant and paint-free product.

ECO-LEGNO

Disponibile in 4 finiture. Light Wood, Style Wood e Dark Wood adottano un cilindro più marcato, composto da venature più aperte e evidenti con contrasti di colore che maggiorano la percezione della profondità del legno. La finitura in superficie è incisa seguendo il verso della vena per rendere il legno ancora più reale. Ontano adotta un cilindro con venature strette e leggere che richiamano il legno Rovere, con una finitura materica tipica del legno levigato, in due gradazioni di colore tenue.

Available in 4 finishes. Light Wood, Style Wood and Dark Wood adopt a more pronounced cylinder, composed of more open and evident veins with color contrasts that increase the perception of the depth of the wood. The surface finish is engraved following the direction of the vein to make the wood even more real. Ontano adopt a cylinder with narrow and light veins that recall Oak wood, with a material finish typical of polished wood, in two shades of soft color.
